Thank you for being here...

Each year we take a small number of people who have come through our Quantum Consciousness Facilitator Training into the advanced course Universal Consciousness. Already you have started to explore the Quantum Field as part of the last learning we offered you, though now it is time to move further into multidimensional facilitation that goes way beyond time, space and any traditional concepts of reality.

Your workplace will move from the Quantum Field, accessing Alternate Realities and various aspects of consciousness, into the multiverse of possibilities available to your client. We invite you to become Multi-dimensional Facilitators of expanded consciousness and your workplace will now become limitless.

This is why it needs to be this way...

It is time for us to change our understanding of who we really are and our place in the universe, only then can we have the fundamental shift we need to create a new world. The time has come for new offerings to people that aren't based on what's wrong or broken. People simply need to remember that they are magnificent beyond their wildest dreams. That they are a divine spark of light, purposefully incarnating here in these times to be part of a shift of consciousness. This is why we came here, from all over the universe.

Most people have no idea about this and it is time for them to know. We are looking for Consciousness Facilitators who align with these philosophies and want to be shown how to expand current understanding towards the point of global transcendence. People are waking up everywhere and that is the most wonderful start, though its not enough. We need people to remember who they really are and walk the streets in the full knowing of that, rippling that energy to all they meet.

What you will learn in Universal Consciousness, is to help the people who are either incompatible with the medical system and traditional therapies, or simply no longer want to pursue those approaches. By activating these types of people, there is the most beautiful ripple into the awakening of human consciousness. These are the ones who will make a huge difference to humanity, once they are in their fully remembered state of being.

You will both experience and offer to each other, sessions that show:

- How a client can transcend rather than heal an existing physical or emotional issue.
- How to help Empaths who absorb energy from other people and environments, build a new energetic infrastructure.
- How to help traveller souls who are unfamiliar with this planet feel more at home here and cherish their special gifts.
- How to access the consciousness of water that is held within us and all around us.
- How to take clients into realms of sound light and vibration to heal and explore.
- How to access other versions of self from the future and bring their wisdom into today.
- How to retrieve lost wisdom from our history and have conversations with galactic family who are helping us
- How to become a Light Leader and be an advocate for a new consciousness.

We need to be clear from the beginning what our course is and isn't...

First and foremost this is about you, as a Facilitator of Consciousness who can meet someone wherever they may be and take them somewhere they have never been before. This new place heralds the remembering of who they really are in a universe of unimaginable magnitude and possibility. We will guide you on how to do this, though it can never be a process. We show you ways to hold the presence of another, expand them into their magnificence and set them free. Much of this work is about intuition and listening to something beyond yourself in order to guide your client towards something they need in that present moment.

This program isn't about feeling competent, having a qualification on the wall or finding new ways of healing people to build your practice to make it more profitable. It goes beyond all that into the energy of service to humanity, being a leader in the shift of global consciousness and surrendering your own paradigms and views of an old world that fading into the past.

It is about becoming an advocate for Universal Consciousness, by breathing it and being it. By you claiming your own magnificence, you give permission to others to do the same.

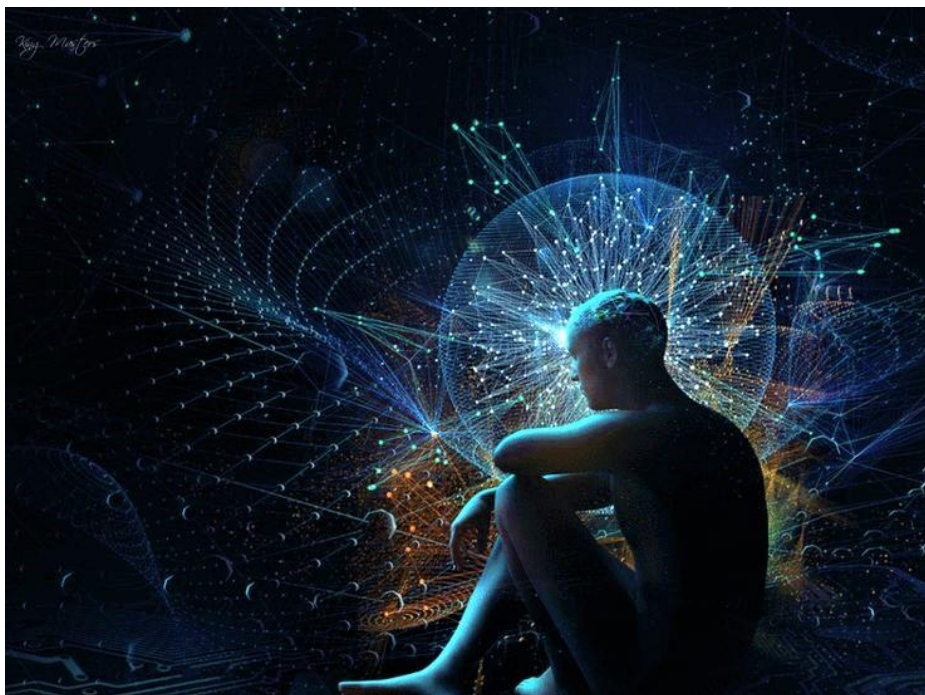

If you are feeling drawn or inspired to know more, simply read on and make contact when you are ready.

Namaste...

Pete

The Call to Universal Consciousness...

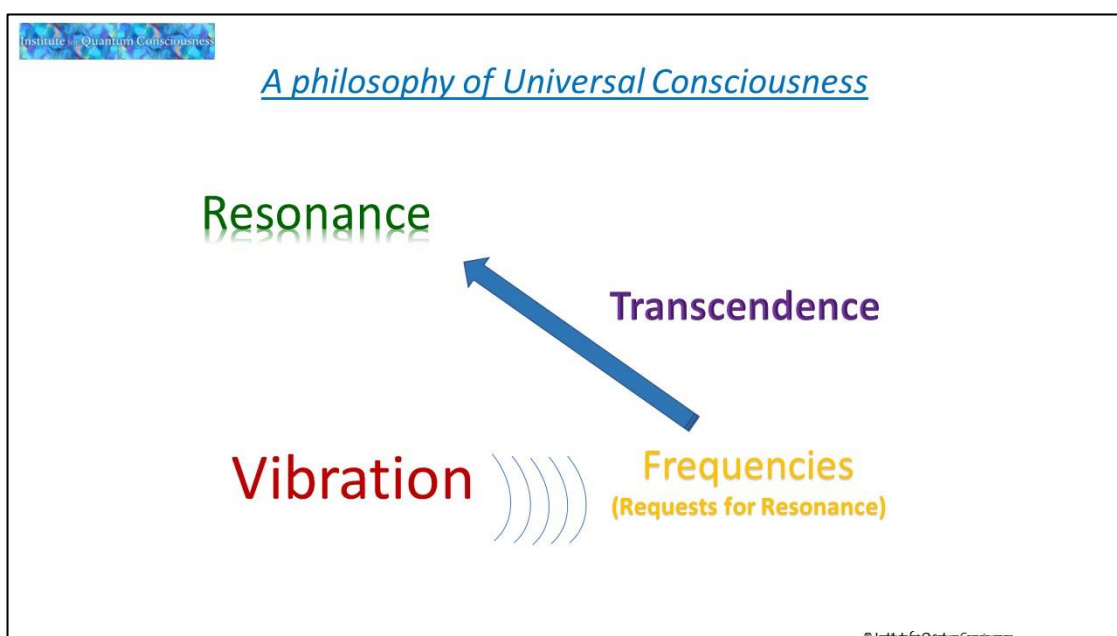

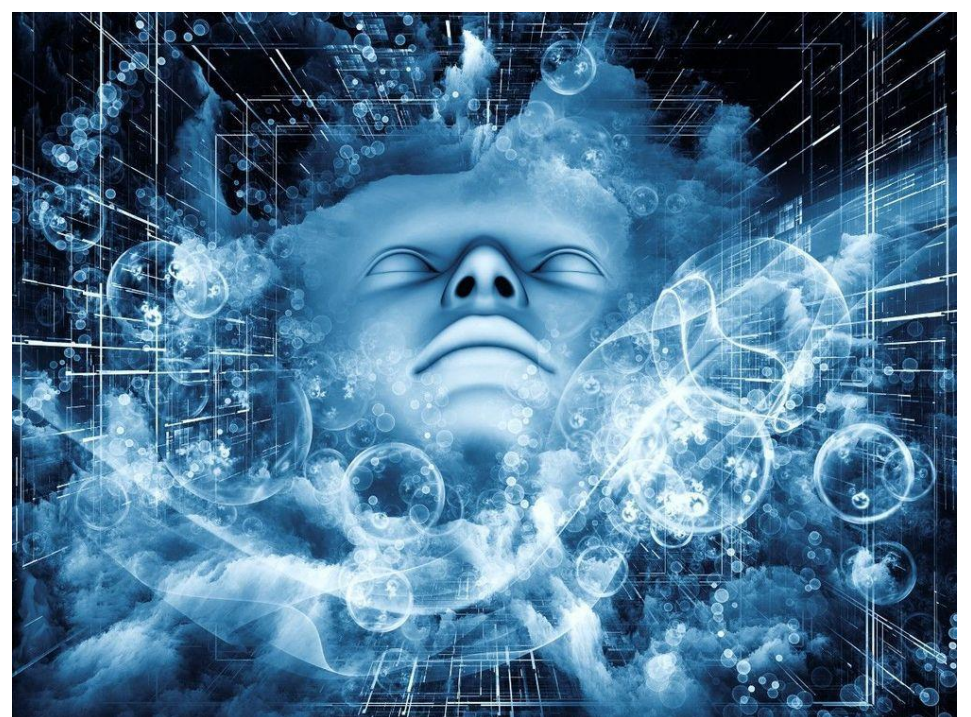

Following your adventures with us into Quantum Consciousness, you may have returned to your work, with a yearning to know more.

The integration of our philosophy will permeate your other offerings to the extent that new ideas and thoughts will start to emerge...

Universal Consciousness was originally created to expand from the Quantum Field around us into the universe itself...and clients need a unique conversation, depending on their needs

We will be taking the models we originally shared with you further, so that you can have a conversation with anyone, in alignment with their state of readiness. There are certain types of conversations that emerge as you realise you are in the presence of an Empath or a Starseed and they need specific care. For them to understand why they are different from others can be a profound moment in their lives. We show you how to facilitate consciousness in a way that holds the client in the highest possible vibration to set them free into their magnificence.

In the most simple of terms....

The universe is made up of energy, frequency and vibration. Once we understand this, we can truly become Facilitators of Consciousness.

Trauma and pain are seen as simply 'requests for resonance', waiting to be transcended. Our role in Universal Consciousness is to help our client find the wisdom beyond their human condition that returns them to resonance.

And then there are some who are ready for more cosmic work...

Over the years we have evolved this learning path, more and more towards a cosmic perspective. So many of us are here from elsewhere. We see our role in the activation of a new consciousness by recognizing other civilisations that support humanity and connecting with them.

For those who have come from elsewhere, we wish to offer them the power and resources of home.

We are both the particle and the wave. We are a unique consciousness in our own right and also part of the wave of humanity, here to make a difference to the world.

The Learning Path

If you are accepted into the Universal Consciousness group for 2024, we ask that you undertake some pre-course activities:

1. We ask that you read the book, *The Transcendence of Celeste Kelly*, which is a (semi) fictional snapshot of our work. We ask that you also refresh the *Quantum Consciousness* book that you read prior to the QC Training. (We will send you PDF versions of both)

2. We ask that you undertake the 9 stage journey program, we call *The Transcendence Adventure*, to open and expand your consciousness in the weeks prior to the course.

3. We ask you to undertake a personality profile to better understand your human doorway, through which all will be experienced. We will debrief you on your profile, to prepare you for the year ahead.

4. Then we will commence the group gatherings over Zoom.

Note: The dates are based on the Australian timezone, commencing at 8am Sydney time for a Saturday/Sunday. USA will be Friday-Saturday Afternoon/Evening. UK/Europe will be late Friday and Saturday nights.

Gathering	Date in 2024	Details
Launch Gathering	May 11th	This first gathering of 2 hours allows for introductions across the group and gives background to the course structure, the birth of the Institute for Quantum Consciousness and the philosophy behind our contribution to human consciousness.
Weekend 1 Vibrational Echoes	May 18-19th	We experience the power of seeing trauma as simply a 'request for resonance'. This is fundamental to this offering and underpins all we do. We observe our first demonstration, before working in PODS to learn our first client journey into transcendence on Day 2.
Weekend 2 Empaths	June 15 th -16 th	Life is difficult for those who absorb the energy of others and this segment of society is growing. We learn how to clear the energy field of the historical noise collected on the path through life and how to tell the difference between what belongs and what does not. This new improved energy infrastructure can also be used to clear the Ancestral Lineage
Weekend 3 Ultimate Consciousness & Ancient Wisdom	July 13 th - 14 th	There are multiple versions of us in other realities beyond time and space as we know it. We bridge the veil between realities to blend with the frequencies they hold. On Day 2 we free our consciousness to travel to ancient times. Many ancient healing techniques have been lost over time. We embrace those frequencies and bring them back to this time.
Weekend 4 Water Consciousness	August 24 th -25 th	The consciousness of water holds a vibration that yearns to be explored. Our physical being consists of mostly water elements as does the earth herself. This module starts to explore our connection to water and its potential as a container of consciousness for humanity.
Weekend 5 Cosmic Home	Sept 21 st -22 nd	Many of us feel like we are far from home and have come here to make a difference. The assignment of this lifetime is easier when we know who we truly are, why we came here and what support structures are within reach, through our cosmic connections.
Weekend 6 Sound, Light, Vibration & Off World Consciousness	Oct 19 th -20 th	The universe is made up of sound, light and vibration. In this module we experience the universe to retrieve any of these frequencies that best serves us in this human form. On Day 2 we make contact with other civilisations in the universe to bring their wisdom to humanity and bond more closer with our cosmic family.
Weekend 7 The Light Leaders	Nov 16 th -17 th	This weekend we spend time assembling your personal plan to move further into your role as a light leader. Your role in the evolution of consciousness is unique, authentic and powerful. We help you to discover it and bring it further into your line of sight.
Regathering 1	January 2025 Date to be confirmed	We come back together for half a day to talk about our experiences to date and pose questions, explore the work further and help each other along the way.
Regathering 2	March 2025 Date to be confirmed	Our final half day together for recap, review and reflect. We talk about The Consciousness Collective as the global alumni group that you become part of.

The Learning Path (con'd)

5. During the course you will be asked to submit a client case both written and recorded for each of the journeys we undertake (8 in total).

6. You will be allocated a personal Mentor for the duration of the course from our teaching team. Their role is to be the person who works through your cases with you, provides support and encouragement and helps you get the most out of the course. As an experienced practitioner of Universal Consciousness, they will be an invaluable resource for you. They will hold the knowing for you for the duration of 10 months we are together.

7. At the successful conclusion of the course, you will be invited to join any ongoing CPE events for Universal Consciousness, held by the Institute for Quantum Consciousness.

A personal note from Pete Smith...

"You have worked with us before and you know who we are, so the following words will come as no surprise..."

What we are seeking in applicants, are people who feel called to do this work to help humanity transcend some of the old ways of doing things and embrace a new model of the human condition. All that you experienced in the Quantum Consciousness Journey was just a start...

Some of the words in this brochure may have resonated with you, validated some of the experiences you have had already, opened your heart or even touched your soul.

This will be an experience in your life that needs full commitment, as we want nothing less than to change the world. We put our heart and soul into what we do, so you will have that full commitment from us also.

We seek to undertake a greater purpose through the ripple of this work into the consciousness of humanity and you will be that ripple, touching the hearts and minds of your clients.

We will challenge some of what you know, perhaps transcend old models you've worked with successfully and show you new ways to see the universe and your place in it.

In order to complete the course, we need you to attend all classes, submit all cases and make the time in your life to go through the materials we send you.

We seek not just your commitment for time, but your uninterrupted presence in the privacy of your own home as you work with other participants in theirs.

If this works for you, we'd love to hear from you.

With love and respect"

Pete
