Thank you for considering our offering...

You could say that humanity needs new solutions for the problems we have had for generations, though for us that is not enough...

It is time for us to change the paradigm of who we really are and our place in the universe, only then can we have the fundamental shift we need to create a new world. The time has come for new offerings to people that aren't based on what's wrong or broken. People simply need to remember that they are magnificent beyond their wildest dreams. That they are a divine spark of light, purposefully incarnating here in these times to be part of a shift of consciousness. There is no other reason that they came here, from all over the universe.

99% of people have no idea about this and it is time for them to know. We are looking for Consciousness Facilitators who align with these philosophies and want to be shown how to expand beyond the 1% towards the point of global transcendence. People are waking up everywhere and that is the most wonderful start, though its not enough. We need people to remember who they really are and walk the streets in the full knowing of that, rippling that energy to all they meet.

What you will learn in this course, is to help the people who are either incompatible with the medical system and traditional therapies, or simply no longer want to pursue that approach. By activating these types of people, there is the most beautiful ripple into the awakening consciousness. These are the ones who will make a huge difference to humanity, once they are in their fully remembered state of being.

We will show you techniques to help Empaths who absorb energy from other people and the environments around them. We will show you how to help traveller souls who are unfamiliar with this planet, feel more at home here and cherish their special gifts. We will work with the souls who have incarnated here many times, building momentum towards this time in our history, honouring what they have dedicated over their soul lineage. We will show you how to work with seekers, those who are ready for new systems of healing and exploration and are driven from within to find out who they really are.

We need to be clear from the beginning what our course is and isn't. First and foremost this is about you, as a Facilitator of Consciousness who can meet someone wherever they may be and take them somewhere they have never been before. This new place heralds the remembering of who they really are in a universe of unimaginable magnitude and possibility. We can't show you exactly how to do this, though we can show you ways to hold the presence of another, expand them into their magnificence and set them free. Much of this work is about intuition and listening to something beyond yourself in order to guide your client towards something they need in that present moment.

This program isn't about feeling competent, having a qualification on the wall or finding new ways of healing people to build your practice to make it more profitable. It goes beyond all that into the energy of service to humanity, being a leader in the shift of global consciousness and surrendering your own paradigms and views of an old world that is crumbling fast.

It is about becoming an advocate for Universal Consciousness, by breathing it and being it. By you claiming your own magnificence, you give permission to others to do the same.

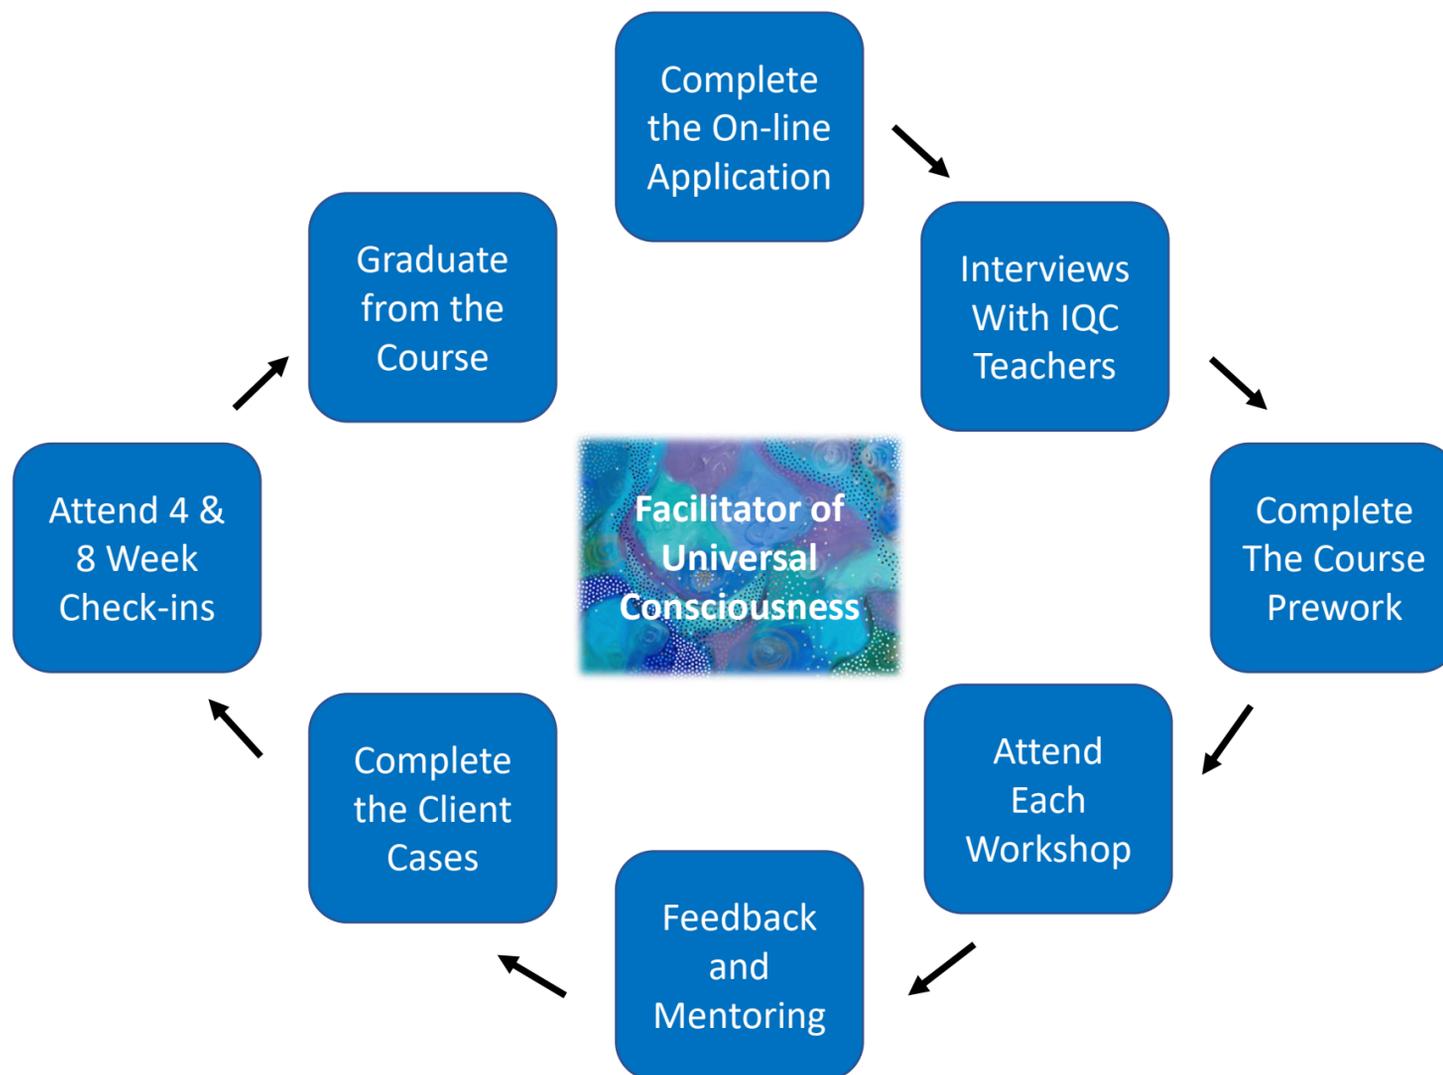

If you are feeling drawn or inspired to know more, simply read on and make contact when you are ready.

Namaste...

Pete

Course Overview

The first step is to complete the application form, which will then be considered. The more information you can offer in the application, the easier it is for us. We will offer feedback on your application or invite you to an interview with our team. This may be one or two interviews.

If accepted into the course we ask you to read the book “Quantum Consciousness – Journey through other realms” and undertake a 16 personalities profile and a Personal Values Assessment on the Barrett’s Consciousness Model. These two profiles are simply for self-awareness and we will debrief you on each of them. We also request you undertake a video-based meditation program called the “Transcendence Adventure” and journal your reflections.

Our zoom classes are then held over 8 days, one for each module. We will be working on 4 separate weekends, (possibly Fri/Sat, depending on timezones) around a month apart, with 14 client cases submitted and feedback provided by your appointed mentor, in between. Your Mentor will provide you a supportive space for the duration of the program and review your cases with you.

We will regather 4 weeks after the last weekend and 8 weeks after as well, to share stories, consolidate our learnings and reconnect as a group.

Once graduated, you will be welcomed to become part of our alumni ‘The Consciousness Collective’, and if you wish, join the International Energetic Healing Association, (where we are an accredited course provider), as our recommended membership organisation for practitioner’s needs and continued development.

Course Structure

The overall course structure totals 150 Hours.

This is made up as follows:

- Group Work via zoom, including class gatherings and 4 and 8 week follow ups 54 Hrs
- Individual work via zoom with one of our Teaching Team 12 Hrs
- Case work for your submissions (14 cases) 42 Hrs
- Reading/Reflection/ Meditation and Journaling 42 Hrs

The 8 modules we will study are listed below:

Pre-course work	Initial Interview , followed by: 16 Personalities, CTT Values Assessment, Transcendence Adventure with journaling
1. The Philosophy of Universal Consciousness	We discuss and then experience for ourselves the power of holding the knowing of another’s magnificence. This is fundamental to this offering and underpins everything else. We discuss IQC and our role in building consciousness careers and our contribution to the evolution of consciousness on this planet. We absorb a demonstration of the Infinity Model
2. Becoming a multidimensional Consciousness Facilitator	We use the Infinity Model to take each other on journeys to remember ancient wisdoms, absorb the new frequencies being offered from other civilisations and enrol our other lifetimes on this planet to build momentum towards a global shift in consciousness.
3. Vibrational Echoes in the Energy Field	The universe speaks through us using our physical presence or our emotional landscape. We learn how to listen to these messages, take an expanded states of awareness view of what is seen as physical or emotional distress and transcend that frequency to achieve resonance.
4. Freeing the Energy Field of Empaths	Life is difficult for those who absorb the energy of others and this segment of society is growing. We learn how to clear the energy field of the historical noise collected on the path through life and how to tell the difference between what belongs and what does not.
5. Creating Intergenerational Resonance	Difficult energies can be passed down through generations. We learn how to bring our client into their full knowing as the means by which family lines are set free. We send this healing into the collective consciousness of humanity.
6. Powerful Parallels in the Soul Lineage	Our other experiences on this planet have given us many skills and refined many talents. We learn how to step into the resonance of these frequencies and bring them into this client space.
7. Remembering Multidimensional Resources	We have access to skills from other planets and dimensions through the doorway that is our human presence. We move through this doorway into the universe itself to experience these first-hand, remembering them into this human state
8. Connecting to our Cosmic Home	Many of us feel like we are far from home and have come here to make a difference. The assignment of this lifetime is easier when we know who we truly are, why we came here and what support structures are within reach.

Our Teaching Team

Pete Smith is the designer of the Universal Consciousness offering and Founder of the Institute for Quantum Consciousness. He was president of The Michael Newton Institute from 2009-2019 and has trained consciousness facilitators around the world. He has been teaching Quantum Consciousness, Universal Consciousness and Hypnoenergetics over the past decade and is the author of 'Quantum Consciousness – Journey through other realms'. Pete is a member of the Transformational Leadership Assembly - Australia. He is based on the north coast of New South Wales in the Bellingen area. Pete will lead the debrief of the consciousness tools, be the main teacher for the course and a mentor for course participants.

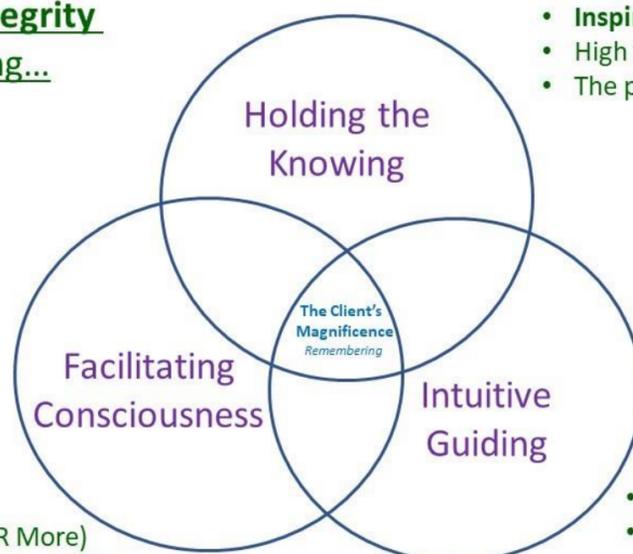

Natalie McGrath is a qualified Reflexologist and Reiki Master and has been a valuable coach and teacher at the Institute for Quantum Consciousness for some years.
