Quantum Consciousness Facilitator Training Melbourne – July 26th to 29th 2019 (4 Days)

The **Quantum Consciousness Experience** is a transcendent modality that offers people a journey into their expanded states of awareness, to experience profound wisdom and remember their magnificence. We teach therapists to become facilitators of consciousness in a high vibrational learning environment where you both offer and receive journeys into your own expanded states of being, over the period of the course. This 4 Day program designed for Alternate Health Practitioners shows you how to take your clients on a journey into alternate realities, parallel lives, interdimensional consciousness and beyond. The course is designed to bring new mindsets and inspiration to those who have been offering therapeutic work for a while and are now looking for advanced techniques based on four core principles of Quantum Physics. (Observer Effect, Entanglement, Non-Locality and the Holographic Universe). We explore Vibration, Frequencies, Resonance and Transcendence as the main philosophies behind this offering to humanity and the evolution of consciousness we are experiencing, in these times. We explore the human aspect of you through personality profiling, before inviting you to connect with and “remember” the multi-dimensional nature of your expanded state of being. Following the successful completion of the course, you may be invited to submit cases for formal accreditation and listing on the central website for referrals. You will also be invited to join the alumni group “The Consciousness Collective” – a global network of those who have undertaken Quantum Consciousness Facilitator Training.

\$1295 – Includes morning/afternoon tea, all materials and coaching during the 9 month certification period.
