

Become a Quantum Consciousness Facilitator

The **Quantum Consciousness Experience** is a transcendent experience that offers clients a journey into their expanded states of awareness, to experience profound wisdom and remember their magnificence. We teach therapists to become facilitators of consciousness in a high vibrational learning environment where you both offer and receive journeys into your own expanded states of being, over the period of the course. This 5 Day program **delivered over zoom**, is designed for Alternative Health Practitioners and shows you how to take your clients on a journey into alternate realities, parallel lives, interdimensional consciousness and beyond.

The course is designed to bring new mindsets and inspiration to those who have been offering therapeutic work for a while and are now looking for advanced techniques based on four core principles of Quantum Physics. (Observer Effect, Entanglement, Non-Locality and the Holographic Universe).

Following the successful completion of the course, you may be invited to submit cases for formal accreditation and listing on the central website for referrals if you would like to. You will also be invited to join the alumni group “The Consciousness Collective” – a global network of those who have undertaken Quantum Consciousness Facilitator Training.

There will also be a mentoring gathering some 4 weeks after the course is complete.
