Vibrational Consciousness Facilitator Training Melbourne – September 6th to 9th 2019 (4 Days)

Vibrational Consciousness embraces the philosophy that we each hold within us, incredible wisdom that simply needs to be remembered. A facilitator holds this knowing about every client, and through a number of different approaches, moves the client into this knowing that either transcends the issue they may be experiencing, or sources incredible wisdom that is from that moment onward, anchored in the human condition. We simply seek to transcend the lower vibrations that keep humanity trapped in the mindsets, beliefs and energy fields of the current day, to finally understand that we are so much more than we know. Vibrational Consciousness embraces the process of 'Transcendence' which accesses new healing frequencies that embrace ancient wisdoms and deliver a life of purpose for the facilitator. The intention of the program is to enable our participants to expand the consciousness of any client, regardless of their state of readiness for deeper work. Every experience offered will be undertaken by all participants in the role of both client and facilitator in the supportive energy of seasoned professionals. The four day course covers "The Art of Resonance", "Releasing Emotional/Physical Echoes", "Exploring the Morphic Field of Humanity" and "Transcending Addiction". This module can be undertaken as a single module, or as part of the journey through the Diploma of Universal Consciousness.
